Principal's Message

Martin Luther King Junior High has been a better place this year for your being here. You have brought with you a feeling of trust and confidence in schools that has been refreshing and encouraging to us all. We may border on an era of better understanding between races, better teaching for students and a basis of trust between adults and young people. Can we accept this as our goal for next year? Can we move in the direction of a dream becoming a reality? Martin Luther King Junior High will be a better place next year, if we bridge the troubled waters of racism, climb the rugged mountain of skepticism, and free our minds to work towards peace and power for all.

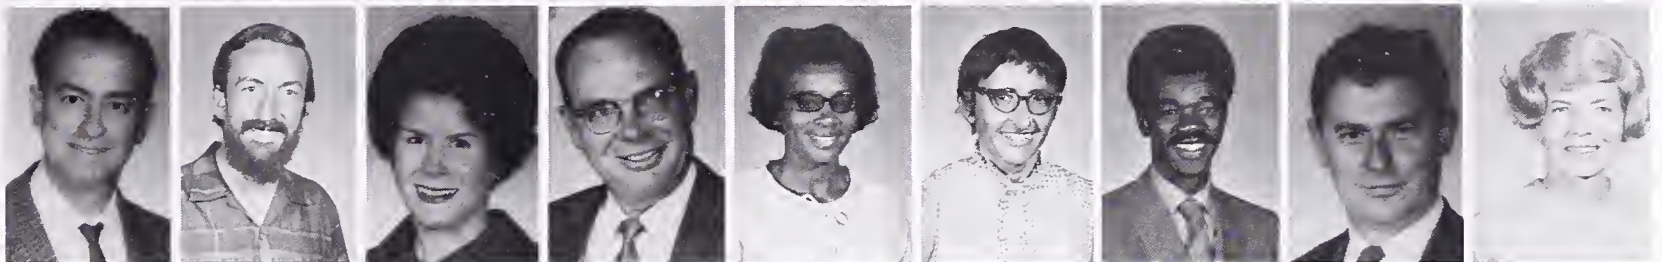

--Harold Treadwell
